PROFESSIONAL SUMMARY

I am a results-driven **Java Full-Stack Developer** with hands-on experience in building scalable web applications using **Java, Spring Boot, Hibernate, and MySQL**. I completed a **5-month internship** where I created a real-time **WebSocket-based food application platform** in a collaborative team environment. I have strong experience in **RESTful API development and responsive front-end design**. I am seeking a challenging role in a dynamic organization where I can contribute to impactful projects and enhance my full-stack development expertise.

TECHNICAL SKILLS

Languages: Java EE (Core Java, J2EE, Servlets), Python, SQL

Frameworks & Libraries: Spring Boot, Spring MVC, hibernate (JPA), Bootstrap, React.Js, Next.Js, Tailwind

Web Technologies: HTML5, CSS3, JavaScript (ES6), REST APIs, WebSockets

Databases: MySQL, JDBC

Tools & Platforms: Git, GitHub, Eclipse IDE, Visual Studio Code, Maven

Cloud & Certifications: Microsoft Azure (AZ-900 / DP-203 – Data Engineer Associate)

INTERNSHIP EXPERIENCE

Full Stack Java Intern | Tap Academy *Jun 2025 – Nov 2025*

- Built a real-time full-stack food ordering web application using Java, Servlets, Hibernate, Spring Framework, and MySQL, implementing MVC architecture for modular and scalable development.
- Collaborated in a 2-member agile team to design, develop, and test full-stack features including user interfaces (HTML/CSS/JS) and backend business logic (Java/Spring Boot).
- Applied MVC architecture principles throughout the project, enhancing code modularity and maintainability.
- Participated in code reviews and sprint planning, improving team delivery consistency across the 6-month engagement.
- Gained industry exposure in areas including REST API design, database integration (MySQL), and deployment workflows.

PROJECTS

Express Food Web Application *Nov 2025*

Tech Stack: *Java, Spring Boot, Hibernate, MySQL, HTML, CSS, JavaScript, Eclipse*

- Designed and enhanced a full-stack food ordering platform enabling users to register, browse restaurant menus, manage a shopping cart, and place multiple orders with order summary verification.
- Implemented RESTful API endpoints using Spring Boot with Hibernate ORM for seamless CRUD operations on food items, user accounts, and order records in MySQL.
- Integrated session management to maintain cart state across pages and added input validation and error handling to ensure data integrity and improve UX.

Secure User Registration & Login System *May 2025*

Tech Stack: *Java, Servlets, MySQL, HTML, CSS, Eclipse*

- Developed a secure, production-level authentication system with password encryption, role-based access control, and session management to prevent unauthorized access.
- Executed server-side input validation and error-handling mechanisms, resulting in robust data integrity across user registration workflows.
- Designed a responsive, intuitive UI using HTML/CSS, providing a seamless experience across desktop screen sizes.

Online Book Store *Aug 2024*

Tech Stack: *Java, Servlets, JDBC, HTML, CSS, Eclipse*

- Built a fully functional e-commerce web application for online book sales, featuring browsing, cart, purchase history tracking, and admin book management capabilities.
- Applied HTTP servlet-based request-response handling, integrating JDBC for direct database operations with MySQL to persist book and transaction records.
- Followed object-oriented design principles to structure the application for extensibility and ease of maintenance.

CERTIFICATIONS

- Java Full-Stack Web Development — Tap Academy
- Microsoft Certified: Azure Data Engineer Associate — Microsoft
- Full-Stack Programming Using Java — HMI Technologies

EDUCATION

B.Tech in Information Technology *2020 – 2024*

NRI Institute of Technology | Vijayawada, Andhra Pradesh | CGPA: 8.2 / 10

ACHIEVEMENTS & LEADERSHIP

- Led a team project from initiation to on-time delivery, taking ownership of task delegation, progress tracking, and quality reviews — demonstrating strong project management skills.
- Recognized with prize money at a college technical fest for outstanding performance in both technical and cultural events.
- Attended multiple industry workshops and seminars on emerging technologies, consistently investing in continuous learning and professional development.
